## *Farm History*

This farm was bought by Marina Lopez de Pacas, Federico's mother, in 2008. This specific land was used years ago for rooster fighting, and it is rumored that Central American Presidents came to this farm to play in the 70's. There is still one of its 5 lots named after the roosters: "La Gallera". When the farm was acquired, it had been abandoned for many years, so it was completely replanted with Pacas and Sampacho trees.
